Success Story

The first Frogstone Grill opened in Maple Ridge in 1999. Building on their success, a Coquitlam location was added in 2004. The Frogstone Grill's menu offers a wide selection from sandwiches and burgers to fahjitas, pasta, brick oven pizza, chicken, salmon, ribs and steak accompanied with appealing appetizers and salads. Both locations feature live entertainment 7-11PM in a casual and intimate setting. The staff are very interactive and offer attentive service.
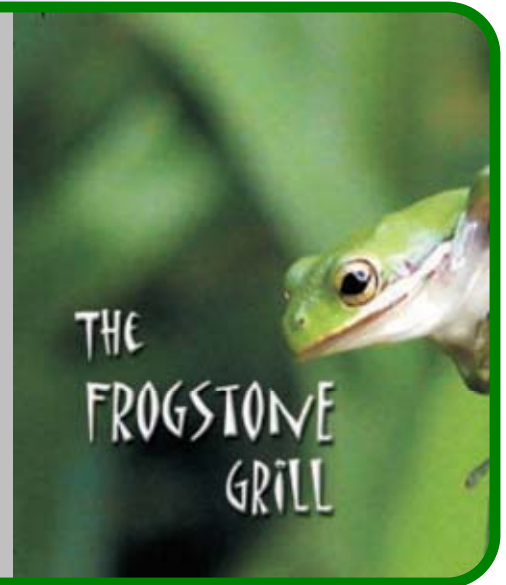

Profitek Solution

Frogstone's POS includes the core Profitek- RMW front of the house and back office functions including employee scheduling and time tracking. They have added the Profitek CCA - High Speed integrated credit/debit card processing module and the Profitek GC – Gift Card module supporting their own "Frog Bucks" gift cards. All hardware and services were supplied by Profitek.

Casual dining concept wins with Profitek POS solution.

Great food. Great service. The intimate setting of a lily pad!

THE FROGSTONE GRILL

Todd and Shari Pratt wanted to create a restaurant that was just as unique and stable as the Thompson River's landmark frog-shaped rock for which their concept is named.   The two unique greater Vancouver locations provide a great experience every time you visit, from the unique flavors and combinations, to the friendly staff and atmosphere.

Key to the selection of Profitek Food & Beverage Management for Frogstone's locations was Todd Pratt's experience with other POS vendors. "I had previously used a competitive system that I desperately did not want to use again" remarked Pratt. "I have high expectations" commented Pratt, "Profitek keeps me happy. They know their system, and are prompt and professional in quickly getting me results."

Profitek
POS Solutions since 1985

What you get.

Proven technology in a turnkey solution with software, hardware, installation, training and support all from one vendor.

Reliability. Rugged redundancy is built into the system that allows you to keep your restaurant running in the most challenging of situations.

Flexibility in a open platform with intuitive software that is easy to learn and use. Profitek software runs on standard PC's, Windows CE hand helds, IBM, NCR or JIVA Touch Screen POS Stations.

Security via password protected security levels is a key component of Profitek Software.

Both Frogstone Grill locations use Profitek Food & Beverage Management software which has been implemented on Profitek modular terminals since opening day in both location. Profitek is both flexible and responsive with comprehensive sales analysis tools. Ease of use is one main benefits of the Profitek system. "Servers from other restaurants with experience with other POS systems continually tell us that Profitek is the easiest system to learn and use" explained Pratt.

InfoSpec Systems, developer of Profitek software, has been in operations since 1985. Our software has proven itself in countless single-unit and multi-unit environments. InfoSpec Systems' ongoing software development, based on industry trends ad our clients' feedback, will ensure your operation remains at the leading edge.
